- **Water feels softer.** Soap works better. Clothes become cleaner. Hair is softer and silkier.
- **Unsightly lime scale and stains** are reduced and easily wiped away.
- **Water tastes and smells better** (foul sulfur and chlorine odours are greatly reduced).
- **Kitchens and bathrooms** will look new again. Ugly stains on sinks, tubs, and toilets begin to soften and clean up.
- **Laundry becomes easier.** Use less detergents and softeners while getting whiter, brighter and softer laundry without soap residue. Delicate fabrics will last longer.
- **Increased water pressure** will result as scale build up in pipes is eliminated.
